

WDGDH10000

Linear equilization shaft encoder holder for encoder types 58B, 58D, 58K, 58N and 58T for lenght determination. Can be combined with the measuring wheels (MRA200KH, MRA200KG, MRA200NG) with 200 mm circumference

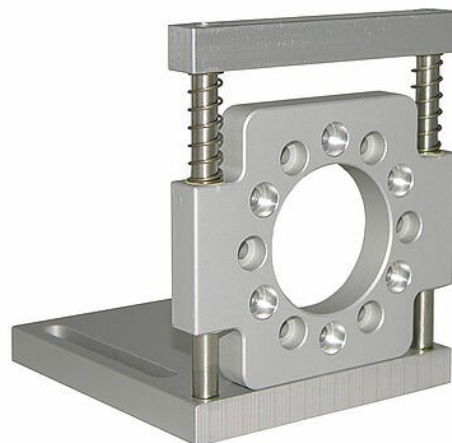

Highlights

Installation from above

Adjustable prestressing force 25 N

Spring travel: 25 N = 8.4 mm

Weight: approx. 300 g

HM 2409

All dimensional specifications in mm
